DIVIDE

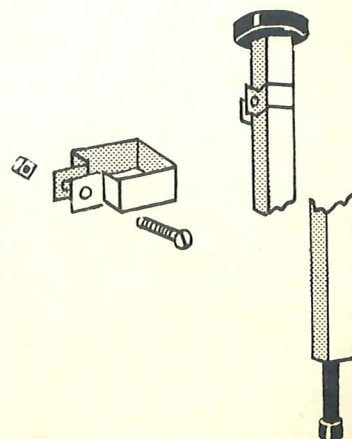

provide a wonderfully inexpensive way to create decorative individuality—and change the ordinary into the unusual.

Recognizing an urgent demand for decorative dividers, Jerit has created and produced a complete line of beautifully dramatic stock and custom units for residential and commercial installation. Only Jerit offers such a complete selection of dividers and partitions—created for amateur and professional decorators to aid them in producing a host of interesting and praise-winning combinations . . . combinations that are limited only by one's imagination and the application of the dividers.

It's easy as A-B-C . . . to DO-IT-YOURSELF with Jerit Dividers!

No costly or time-consuming installation worries with Jerit Dividers and partitions. Anyone can quickly and easily install Jerit Dividers. Each basic unit consists of 1"x1" heavy steel square posts—a screw-type base that allows 6" adjustment—non-skid rubber shoes—pre-cut and pre-punched panels—clamps, bolts and nuts. Special adaptors permit permanent installation and still allow removal at any time without marring floor or ceiling.

Also available with gold anodized aluminum posts and brass color Seville metal panels. Add partial units to create any size divider wall suited to your needs.

Island Divider

ADDS A TOUCH OF THE OUTDOOR
TO YOUR INTERIOR

Simulated Lannonstone is made of tough, durable, moulded fibreglass. It looks and feels like real stone—without the cumbersome weight. Solid Philippine Mahogany, hand rubbed natural or Walnut finish adds the perfect touch on top ledge and sides. Perfect for use as a Divider base or Planter Box. Available in two sizes: 27" high—51" long—12" wide . . . or 39" high—51" long—12" wide.

Here are lifetime panels of beautifully created fibreglass with which to dramatize and create stunning interiors of custom design. All panels and colors shown are available. Ask your salesperson.

METAL SEVILLE BLACK

METAL SEVILLE BRASS

Beautiful, artistic designs are silk screened on rice paper and sandwiched between two layers of fibreglass matting . . . thus permanently embedding the design and color. The translucent feature permits the pleasing transmission of soft, diffused light. It's strength and durability has enabled the builder to use it as a building product.
